Summer School

Our first "**Members' Summer School**", which will be provided as part of your membership, will be conducted between 9th and 25th January 2018. These short courses provide an opportunity for you to try something different or do something that you already enjoy doing, during the term break.

As U3A Ringwood is run entirely by volunteers, all members are expected to undertake various tasks to assist in the effective running of classes and other activities.

When you nominate those activities/roles that you would prefer to assist with, please give serious consideration to being part of our office team, as this role ensures that the Parkwood building is open for the commencement of classes, classes are supported, telephone messages are received and telephone contact from prospective members are dealt with in a professional manner.

Tapping Into Creativity (Code SS.6)

Course Leader: Viki Wright; Time: 9.30am - 2.30pm Friday 19th January – Room 1

Young children are instinctively creative, freely linking the clues they receive from the world into which they are born. This is how they learn to talk, to walk, to hold a spoon. And to draw on the walls and play with mud and taste the cat food. In parental attempts to keep them safe and socialised, parents often unwittingly crush their children's natural urges to creativity. In this one-day course you will have a chance to freshly discover your world. There will be lots of experiments, adventures and surprises, and probably not much mud. All the same, please come in old clothes and bring a small drawing book, coloured pencils or textas, or paints, brushes and a jar, a note book, a plain lined exercise book and a picture of yourself as a small child.

The minimum class size is seven. Members are asked to bring their own lunch for a 9.30 to 2.30 day.

Course Leader: Jim Moroney; Time: Tuesday, 12.30pm – 3.30pm: Room 1 ; and

Course Leader: Jim Moroney; Time: Thursday, 12.30pm – 3.30pm: Room 1 -

The Film/Movie Industry History covers about 12 decades and 5 continents. Over that time there have been 2 World Wars, numerous civil conflicts, social upheavals, a Cold War, space exploration and the development of weapons of mass destruction.

The movie industry began life as a novelty and soon become a form of entertainment and an escape from reality. For the select few the industry became a financial bonanza.

Others, however, saw the medium as a method to exploit ideas and propaganda.

During the mid-twentieth century scholars began to see the medium as a form of expression whereby thoughts and ideas could be expressed and thus it could be considered as an art-form.

Over the six sessions on the Tuesdays and Thursdays we will view some important presentations from some countries and time periods to assist in developing a wider understanding of this medium and its impact.

Six films will be presented and with the time available a discussion will take place. Whilst it is not mandatory it would be beneficial to attend all sessions.
